TITLE : DEODORIZING METHOD FOR
 ASPHALT MIXTURE-PRODUCING
 PLANT

ABSTRACT : PURPOSE: To steeply reduce odor level by previously separating mist in exhaust with a mist separator before discharging of exhaust and spraying a deodorant in the exhaust.

CONSTITUTION: A large amount of exhaust generated from an asphalt mixture-producing plant 1 is flowed through a path 3 to separate a mist component and others by action of a mist separator 4 in a way to discharging tower 2. The exhaust containing a reduced mist component is further flowed in the path 3 and preferably a plant essential oil-based deodorant is sprayed in the exhaust from many nozzles in passing through a nozzle device 7, then odor is removed, thus the exhaust is introduced into the discharging tower 2.
